### **3 Sigma Expands Again**

Troy, OH; Dec. 2010—Following a major expansion of the company four years ago which doubled the size and capacity of their Troy, Ohio, operation, 3 Sigma is growing again.

Funding and preparations are now in place to add a 14<sup>th</sup> production coating line which will be the company's largest and most capable piece of equipment. Work on the project is scheduled to start early in 2011 and be completed in the third quarter.

The machine, retrofitted to 3 Sigma specifications, will accommodate 78-inch web materials can apply multiple coatings and/or adhesives on both the front and back of the web. A laminating station will allow pressure sensitive constructions with liner or multilayered product designs.

Commenting on the expansion, Tony Rowley, 3 Sigma Vice President of Operations, stated: "After weathering the recent industry downturn, 3 Sigma is poised for additional growth and anticipates significant business increases in 2011 and 2012, due to several major new strategic projects. Not only is the increased capacity needed to handle our expected business growth, this additional coater will significantly expand our process capabilities and enable us to provide more highly engineered constructions for new markets."

Since 1980, 3 Sigma has been a fast-growing, resourceful innovator of specialty top-coating and pressure sensitive adhesive coated products. 3 Sigma offers expertise in solvent, emulsion, and hot melt technologies, to provide the optimum solution for any label need. Quality teams monitor and inspect material throughout the manufacturing process according to ISO 9001:2008 guidelines, to ensure that 3 Sigma customers receive the best label stock available.
